

Activating Access to Clinical Biomechanics

Instructions for the American Society of Biomechanics (ASB)

To activate access to the journal online, and to create your personal account, you should use your Customer Reference number which appears on the mailing label of the paper issue of this journal.

Please go to the following URL:⇒ www.clinbiomech.com

At that website immediately go to the upper right hand corner and select “Register” and then “Register and Activate your Subscription.”

If you have access to another Elsevier product online, please enter your username/email and password and select “Login.” If not, please enter your email and select “continue.” If you selected “continue” you will create a User Profile. Either way you will need to use the Customer Reference Number once the initial User Profile is created and you select that you receive the journal through a society membership, in this case the ASB.

Once the process is completed, you can gain access in the future by going to www.clinbiomech.com and logging in the upper right hand corner.

Please note, access to this journal via your Society Access, is available from articles published after January 1995.

If you encounter any problems registering, please note that older browsers may not support SSL encryption, which is required for secure data transmission. Also, cookies must be enabled in your browser to support the registration process.

If you need your Customer Reference Number, please contact
USSocieties@elsevier.com.
